4M TRADE

COMPANY PROFILE

GENERAL TRADING · SPARE PARTS · INDUSTRIAL SUPPLIES · 2026

About 4M Trade

4M Trade is an Egyptian company specialized in general trading, industrial spare parts, and engineering supplies. For over 5 years, our team has been building direct relationships with manufacturers and industrial buyers, positioning 4M Trade as a reliable link between global suppliers and the Egyptian and regional industrial market.

We are specialized in:

- General trading and import of industrial, mechanical, and electrical products
- Sourcing and supply of spare parts and engineering supplies for factories and plants
- Tendering, technical compliance review, and commercial offer preparation for industrial projects
- International procurement across Europe, China, Turkey, India, the UAE, and Egypt
- Agency for ELMEKPROM EOOD (Bulgaria, EU) — power transmission equipment and engineering services

Our experience spans a wide range of industrial sectors, with a strong track record supplying and supporting companies in the **oil & gas sector**, alongside power generation, petrochemical, steel, cement, mining, fertilizers, water treatment, and general infrastructure projects. We work directly with international manufacturers and trading houses, giving our clients access to competitively priced, high-quality products backed by proper documentation and technical support.

5+ YEARS IN THE MARKET	**6** SOURCING COUNTRIES
B2B INDUSTRIAL & GOVERNMENT CLIENTS	**O&G** OIL & GAS TRACK RECORD

What We Offer

From single spare parts to complete supply packages, 4M Trade covers three core service lines for industrial clients:

General Trading
Sourcing and importing a wide range of industrial products from trusted global manufacturers.

Spare Parts
Reliable, high-quality spare parts for rotating equipment, electrical systems, and plant machinery.

Industrial Supplies
Engineering supplies and MRO items to keep production lines and facilities running smoothly.

01 Mechanical & Rotating Equipment

- Pumps, valves, and gearboxes
- Bearings, couplings, and power transmission parts
- Compressors, dryers, and heat exchangers
- HVAC equipment and components

02 Electrical, Instrumentation & Automation

- Panels, switchgear, and protection devices
- Automation, control, and instrumentation systems

03 Materials & Custom Sourcing

- Industrial chemicals and building materials
- Custom sourcing for non-standard and hard-to-find items

Sectors We Serve & Global Reach

Industries We Support

Oil & Gas | Power Generation | Petrochemical | Steel & Mining | Cement | Fertilizers | Water Treatment | Infrastructure | HVAC

A significant part of our experience has been built serving **oil & gas sector companies**, where technical compliance, documentation, and delivery reliability are critical. This experience carries over into every sector we serve.

01 International Sourcing Network

We work directly with manufacturers and trading partners abroad, giving our clients competitive pricing and shorter lead times through direct-from-source procurement.

Europe | China | Turkey | India | UAE | Egypt

02 Trade & Documentation Expertise

Our team manages the full trade cycle — from commercial terms to customs clearance — under all major international trade terms.

FOB | CIF | CIP | EXW | DDP

Our Agency: ELMEKPROM EOOD

4M Trade is the agent of **ELMEKPROM EOOD**, an EU-registered industrial engineering and power transmission company based in Bulgaria. The agency connects our clients with engineering-led sourcing and qualified power transmission manufacturing capacity, handled through 4M Trade as their direct point of contact.

ELMEKPROM
INDUSTRIAL SOLUTIONS

Principal	ELMEKPROM EOOD
Registered	Veliko Tarnovo, Bulgaria (EU)
Focus	Industrial engineering & power transmission solutions
Experience	20+ years in industrial procurement, engineering supply and international trade behind the company
Regions	Europe · Middle East · Africa · Central Asia
Website	elmekprom.eu

Why It Matters to Our Clients

EU-Registered
Registered and trading in Bulgaria, within the EU regulatory and trade framework.

Engineering-Led
Every inquiry gets a technical review first — matching a duty cycle, not just a part number.

Multi-Brand Flexibility
Not locked to one manufacturer — the partner is matched to your spec, not the other way around.

Documentation-First
Inspection records, test reports and export paperwork issued with every order.

How the Agency Works

4M Trade	ELMEKPROM EOOD
Receives your inquiry, BOQ, or nameplate data	Reviews duty cycle, load, and interface requirements
Prepares technical compliance and commercial offers	Selects a qualified manufacturing partner per component
Manages the order and trade terms with you	Tracks production against the agreed specification and timeline
Follows up on documentation and customs clearance	Inspects, packs, and dispatches with full shipping documents

Power Transmission & Engineering Scope

Through ELMEKPROM, 4M Trade supplies multi-brand power transmission equipment, sourced from qualified manufacturers and matched to your exact duty cycle and ambient conditions.

Product Families

01 Industrial Gearboxes
Helical, bevel-helical, planetary, worm and shaft-mounted units for continuous and shock-load duty.

02 Electric Motors
IE3/IE4 industrial motors matched to ambient, altitude and hazardous-area requirements.

03 Couplings
Flexible, gear and torsional couplings sized to torque, misalignment and shock characteristics.

04 Bearings
Roller, ball and plain bearings qualified against load, speed and contamination exposure.

05 Variable Speed Drives
Drive and control packages for process lines requiring precise speed and torque control.

06 Mechanical Components
Shafts, sprockets, chains and custom parts to drawing or reverse-engineered profile.

Engineering Services

- **Mechanical Design** — drive-train integration and mounting support
- **Product Selection** — duty cycle, load and ambient analysis
- **Reverse Engineering** — specification rebuild for obsolete parts
- **Failure Analysis** — root cause review before resupply
- **OEM Development** — technical files for OEM-spec components
- **Custom Manufacturing** — drawing-to-part coordination

From Review to Delivery

1	2	3	4	5	6
Engineering Review	Partner Qualification	Production Oversight	Inspection & Testing	Export Packaging	Worldwide Delivery

Send your BOQ or nameplate data to 4M Trade.
Include equipment type, nameplate or drawing, quantity, duty, and delivery location.
